FIG. 2A      FIG. 2B      FIG. 2C

This cross-sectional view shows a multi-layered assembly. A central vertical component, labeled 36, passes through several layers. At the top, a layer 37 is shown. Below it, a layer 39 contains a series of circular features. A layer 31 is positioned below layer 39, with a series of circular features 38. A layer 35 is below layer 31, and a layer 33 is below layer 35. At the bottom, a layer 32 is shown. The central component 36 has a top section 36c and a bottom section 36a. A layer 40 is located between the top section 36c and the layer 39. A layer 34 is located between the layer 31 and the layer 35. A layer 38b is located between the layer 35 and the layer 33. A layer 44 is located between the layer 33 and the layer 32. A layer 37 is located at the top of the assembly.
